LAT PULL DOWNS – BACK
LAT PULL DOWNS – FRONT
LOW ROW
TRICEP PUSHDOWNS
Inversion Table

GT-MO | 61”H x 36”W x 82”L | Back & Abs

Help ease back pain or use as preventative maintenance! Please consult physician before starting an exercise routine.

- Compact design fits virtually anywhere
- Reduces muscle tension from everyday stress
- Adjustable angles to maximize effectiveness
- Improve flexibility of back muscles
- Recommended use: 10-15 min. for best results
- Machine Weight: 61 lbs.
- Capacity: 300 lbs.

Ab Crunch

ACM-190 | 52”H x 31”W x 34”L | Back & Abs

Isolates abdominal muscles to achieve powerful, tight abs!

- Suitable for standard or olympic plates
- Fully bushed leverage arms
- Foam handles
- Fixed foot hold
- Back pad for extra support
- Fully adjustable custom seat cushion
- Machine Weight: 91 lbs.
- Capacity: 200 lbs. (not including user)

* Olympic adapters sold separately
Total Back System
TBS-212 | 38”H x 29”W x 50”L | Back & Abs

- One size accommodates users up to 6’4”
- Fold away handles provide stability
- Wheels allow for easy movement
- Multi-position feature gives user options
- Soft, high quality thigh pad
- Five year warranty
- Machine Weight: 65 lbs.
- Capacity: 300 lbs.

Flat Hyper Extension
HYP-156 | 46”H x 26”W x 60”D | Back & Abs

A must for CORE fitness training!
- Constructed with commercial quality 2” x 2” steel tubing and powder coated to last
- Ankle pads telescope to adjust to users of all sizes
- Heavy duty pads provide added support throughout your exercise
- Dual handles lend stability
- Foam rollers have multiple adjustments
- Diamond tread footplate provides no slip grip
- Fully adjustable for length and height
- New design includes handles on footplate to assist entry and exit
- Split pad for more comfort
Develop two of the most important muscle groups in the body: the lower back & abdominal muscles

- Fully adjustable back pad and leg support
- Thick, comfortable pads and rollers
- Simple assembly
- Heavy duty 12 gauge steel construction
- Unique space saving design

**Back & Ab Machine**

**BAM-160** | **33”H x 29”W x 52”D** | Back & Abs

Build a massive, highly defined back

- Fully adjustable chest and seat pad
- Adjustable arms allow for independent or simultaneous motion
- All pivot points equipped with oilite bushings
- Multiple grip handles for complete back development
- Shock bumpers
- Accepts standard or olympic plates *(olympic adapters sold separately)*
- Machine Weight: 110 lbs.
- Capacity: 300 lbs.

*Weights sold separately

**Angled Back Machine**

- Ultra strong ball bearings & flywheel axles
- SPD pedals optional
- Sports drink holder
- Two year limited frame warranty
- One year limited part warranty
- Fly Wheel Weight: 40 lbs
- Machine Weight: 110 lbs
- Capacity: 350 lbs

HIGOL Stationary Pro 34B
HGL-PRO34B | 48”H (adjustable) x 26”W x 41”L | Bikes

For Commercial Use
Stable & Durable, Heavy Duty for professional ride
- Belt transmission
- Durable grooved V-Belt direct drive system
- Smooth & quiet ride
- Sweat resistant
- Fender on top in two sides of fly wheel
- Stainless steel stems
- Micro-adjustable slide system on seat & handlebar
- Ultra strong ball bearing & flywheel axles
- Sealed bearings
- Crank: oversized forged, durable
- Center balanced flywheel
- Tension control
- SPD pedals optional
- Fixed wheel drive system
- Emergency stop
- Transport: wheel in front foot tube for easy moving
- Floor levelers
- Low maintenance & easy assembly
- Fly Wheel Weight: 54 lbs
- Machine Weight: 135 lbs
- Capacity: 350 lbs
HIGOL Stationary Pro 68
HGL-PR068 | 48”H (adjustable) x 26”W x 41”L | Bikes

For Commercial Use
Stable & Durable. Heavy Duty for professional ride
- Patented construction
- Micro adjustable slide system on seat & handlebar – infinite position available no holes limiting adjustment options
- Durable grooved V-Belt direct drive system – smooth & quiet ride
- Ultra strong ball bearing and flywheel axles
- Sealed bearings
- Crank: Oversized forged, durable
- Tension control – multi-control for light or heavy resistance
- Fixed wheel drive system
- Emergency Stop by pressing down on knob, simply and safely
- Transport: wheel in front foot tube for easy moving
- Fly Wheel Weight: 44 lbs
- Machine Weight: 126 lbs
- Capacity: 350 lbs

Denali Spin Bike
DEN-BIKE | 48”H (adjustable) x 20”W x 43”L | Bikes

Home Use – Available in Chain or Belt Drive
DEN-Bike – Chain drive
DEN-Belt – Belt drive
- Built to handle heavy daily usage
- Tough sealed ball bearings
- Powder coated to prevent corrosion & last for years

- One-hand tension adjustment
- Heavy duty wheels installed on base for ease of movement
- Fly Wheel Weight: 40 lbs
- Machine Weight: 110 lbs.
- Capacity: 300 lbs
Heavy Duty Plate Rack

**HPR-129 | 39”H x 19”W x 29”L | Plate Trees / Racks**

This improved tubular design is not prone to the warping and bending common to units constructed of flat steel. The stabilizing legs are constructed of heavy 2” x 2” tubing to produce a safer, more stable unit. Six staggered pegs accommodate standard or olympic plates on a single unit.

Olympic Plate Tree

**OPT-184 | 47”H x 18”W x 20”L | Plate Trees / Racks**

With the same improved tubular design and 2 1/2” x 2 1/2” tubing, the OPT-184 accommodates olympic plates and has two built-in bushed bar holders.

---

Dumbbell Rack

**DPR-151 | 51”H x 29”W x 52”L | Plate Trees / Racks**

Triple tier rack angled for easy access and storage of dumbbells. Designed to display a 5-65 lb. standard hex dumbbell set with pride. Slotted racks allow user to adjust each tier independently for use with pro-style or solid dumbbells for proper fit.

Replacement Parts

Yukon offers a wide selection of high quality replacement parts and other accessories for our strength training equipment. You may order seat pads, cable, pulleys etc by accessing the “replacement parts” on our website [www.yukonfitness.com](http://www.yukonfitness.com) or call us for another specific part 800.799.8566

---

**All weights sold separately**

*Dumbbells sold separately*
**Accessories**

**Premium Mats**
**PRM-590**

4’ x 6’ premium grade rubber composite mats protect and silence your workout room from the most grueling routines. Absorbs impact and prevents scratching and damage to your floors. Special composite materials prevent scuffing or color transfer, and eliminates rips or splits. Both surfaces are traction enhanced, so even if you can damage one side, the mat can be reversed. Available in Matte Black. Weight: 91 lbs

**Dumbbells**
**HDS-311**

Hammertone Grey Hex Dumbbells. The finest materials are used to produce quality Hex dumbbells by casting molted iron around a knurled steel handle creating the most durable dumbbell available. Sold as 5 to 50 lb. sets and sizes in 5 lb. increments to 100 lbs.

**300 lb. Olympic Set**
**OLY-230**

300 lbs. of muscle pumping iron to build the body definition you have always wanted. Complete with two 45 lb., two 35 lb., two 25 lb., two 10 lb., four 5 lb., two 2.5 lb., on 7’ heavy duty olympic bar with knurling and two easy-on spring clips.
Equipment Specs

Frames
Yukon equipment is constructed of 2” x 2” and 2 1/2” x 2 1/2” heavy gauge structural rolled steel tubing. Our engineers select only the finest grade steel available to insure that you receive the highest quality machine. Yukon’s volume buying power enables us to get the finest steel on the market at the lowest prices. Yukon equipment is expertly hand crafted with state-of-the-art mig welding for superior strength and aesthetic appearance. Mig welding produces higher temperatures and smoother welds with less flash than conventional arc welding.

Cables
3/16” nylon coated mil-spec. aircraft cables with a 2,000 lb. test are built to last. All cable loop around steel alloy thimbles and terminate in machine sealed clamps eliminating the possibility of frayed cables or clamps loosening. All cables are color coordinated in black.

Upholstery
We spared no expense when purchasing our materials for the Yukon bench padding. The high standards set by our engineering department are carried through in all Yukon equipment. The padding consists of a top grade laminated wood base featuring recessed steel T-nuts overlaid with a high density foam that is covered by a premium moisture resistant maring grade vinyl. The corners and seams are box stitched to help eliminate folds and pad stress.

Pulleys
All Yukon Fitness machines feature either 4” deep grooved nylatron pulleys or concave urethane rollers, fitted with sealed ball bearing assemblies, and covered by dust caps for ultra smooth action and minimal wear.

Finish
We take great pride in delivering you the highest quality finish possible. Our factory is equipped with the newest technology in electrostatic finishing. Each piece is dipped in a phosphate tank to clean and seal the interior and exterior surfaces against corrosion. The machine is then powder coated in a high gloss finish and oven baked. The finished product is a beautiful chip resistant, durable, low maintenance machine that will give you years of enjoyment.

Warranty Policy
Yukon International, Inc. warrants its products against defects in materials and workmanship as outlined herein. Welded structures, pulleys, bearings and bushings are guaranteed for life of the registered owner. After receiving a return control number from the company, the customer is responsible for shipping the defective equipment to Yukon International, Inc. at 23700 Aurora Road, Bedford Hts., Ohio 44146 via prepaid freight for replacement or repair. Upholstery, grips and cables are also warranted for the life of the product. This warranty shall cover the original purchaser only. This warranty covers only failures due to defects in materials and workmanship that occur during normal use. This warranty does not cover the use or failure of equipment in commercial or institutional applications. Replacement or repair as provided for under this warranty is the sole remedy of the user. Yukon International, Inc. shall not be liable for incidental or consequential damages or for breach of any express or implied warranty on this product. Yukon reserves the right to send reconditioned replacement parts. YUKON WILL NOT ACCEPT OR REFUND ANY SHIPMENT THAT IS RETURNED WITHOUT THE FREIGHT BEING PREPAID BY THE CUSTOMER. RETURNED MERCHANDISE WILL BE APPLICABLE TO A 15% RE-STOCKING FEE CHARGED TO THE CUSTOMER. Yukon International reserves the right to use reconditioned parts as replacement parts at our discretion. We also reserve the right to request defective parts for repair.

Warranty for Light Commercial Equipment:
Pads: 90 Days
Welds: Lifetime
Cables & Pulleys: 6 Months

Parts are available for purchase after warranty expires.
SATISFACTION POLICY
For the past 15 years, our goal at Yukon International has been to provide the best value in home equipment. We strive toward maintaining this goal today, and for years to come. Yukon International Fitness equipment is designed to be the best equipment for home use. We take pride in offering our consumers the best equipment available at competitive prices. We price our products fairly and honestly and stand behind each piece with a full money back guarantee.

If you are not completely satisfied with your purchase, you must obtain a “return materials control number” within 30 days of the date of purchase. Please call us directly at (800) 799-8566 in order to obtain this return authorization number. **REFUNDS WILL NOT BE ISSUED/PROCESSED FOR PRODUCTS RECEIVED WITHOUT APPROPRIATE AUTHORIZATION.** All returns must be in original packaging and in re-salable condition. Customer returning product is responsible for shipping costs to our facility. Yukon Fitness will refund your purchase price less your original shipping costs. Yukon International reserves the right to impose a fifteen (15%) restocking fee.

Yukon’s warehouse center is packed with equipment and is ready to ship your order Monday–Friday 9:00AM–5:00PM EST. Orders usually ship within 24 hours of receipt. Delivery time may vary around holidays and peak seasons.

INTERNATIONAL CUSTOMERS
Customer orders shipped outside of the continental U.S. shall bear all costs for parts, including shipping costs, any duties and/or taxes, and any and all other charges imposed by customs agencies and any other taxing authorities, including, but not limited to, customs inspections.

CANCELLATION POLICY
Yukon Fitness’s adherence to high standards of quality in customer service allows us to pick, pack and label orders immediately upon receipt. Due to the logistics of our warehouse operations, Yukon Fitness reserves the right to charge a cancellation fee on orders picked, but not yet shipped. Customer cancellations are subject to a fee equaling 10% of their order total.

Orders are cancellable without penalty ONLY if the order has not yet been processed. In all other cases, a cancellation fee totaling 10% of the order total will be imposed.

If a customer wishes to cancel an order that has already shipped, customer is responsible for paying shipping (both ways), and the additional 10% cancellation fee. Customer will also be responsible for any damage in shipping, and for a 15% restocking fee.

WARRANTY INFORMATION
Yukon International warrants its products against defects in materials and workmanship outlined herein. Welded structures, pulleys, and bushings are guaranteed for the life of the registered owner and where noted, **NOT including light commercial and/or aerobic equipment which carry only limited warranties.** After receiving a “return materials control number,” the customer is responsible for shipping the defective equipment to Yukon via prepaid freight for replacement or repair. This warranty covers only failures due to defects in materials and workmanship that occur during normal use. It does not cover damage that occurs in shipment or failures due to misuse, abuse, neglect, misapplication, alteration or improper assembly of the product. This warranty does not cover the use or failure of equipment in commercial or institutional applications.

REPLACEMENT PARTS
Replacement or repair as provided for under this warranty is the sole remedy of the user, and customer shall be responsible for paying freight charges. Replacement parts necessary to repair a defective product will be shipped at the customer’s expense. Repair parts requested by anyone other than the original purchaser shall incur charges for requested parts and shipping costs. Yukon shall not be liable for any incidental or consequential damages or for breach of any express or implied warranty on this product. At its sole discretion, Yukon International reserves the right to use or provide reconditioned parts and/or to request a return and repair existing defective or broken parts.

SHIPPING POLICY
Orders will be shipped using UPS, FedEx, or USPS. **Large orders such as home gyms, smith machines and barbell sets will be shipped via motor freight trucking companies. Orders arriving by truck are CURBSIDE ONLY.** You will need to be present in order to receive the delivery, and it is your responsibility to unload the equipment. If you have any special delivery requests or instructions such as a request for inside delivery, please contact us ahead of time so that we can provide a price quotation for added services and make the proper arrangements.
